

STATE OF CALIFORNIA  
STATE WATER RESOURCES CONTROL BOARD  
**DIVISION OF WATER RIGHTS**

**ORDER**

Application 28680 Permit 20373 License                     

(OVER)

**ORDER APPROVING A NEW DEVELOPMENT SCHEDULE**

**WHEREAS:**

1. Permit 20373 was issued to Fellowship of Inner Communion on October 16, 1989 pursuant to Application 28680.
2. A petition for an extension of time has been filed with the State Water Resources Control Board.
3. The permittee has proceeded with diligence and good cause has been shown for said extension of time.

**NOW, THEREFORE, IT IS ORDERED THAT:**

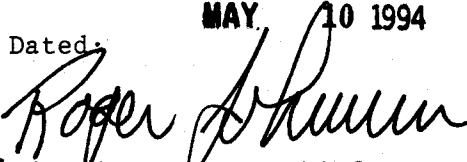

1. Condition 7 of the permit be amended to read:

COMPLETE APPLICATION OF THE  
WATER TO THE PROPOSED USE  
SHALL BE MADE ON OR BEFORE

December 31, 1999

(0000009)

Dated: **MAY 10 1994**

  
For Edward C. Anton, Chief  
Division of Water Rights

STATE OF CALIFORNIA  
WATER RESOURCES CONTROL BOARD  
DIVISION OF WATER RIGHTS

PERMIT FOR DIVERSION AND USE OF WATER

PERMIT 20373

Application 28680 of Fellowship of Inner Communion

c/o Mr. John Helin; 14618 Tyler Foote Road, Nevada City, CA 95959

filed on December 24, 1985, has been approved by the State Water Resources Control Board SUBJECT TO VESTED RIGHTS and to the limitations and conditions of this Permit.

Permittee is hereby authorized to divert and use water as follows:

1. Source:

Tributary to:

1), 2), 3) & 7) Unnamed Stream

Shady Creek thence

South Yuba River

6) Unnamed Stream

Shady Creek thence

South Yuba River

| 2. Location of point of diversion:  | 40-acre subdivision<br>of public land survey<br>or projection thereof | Section | Town-<br>ship | Range | Base<br>and<br>Meridian |
|---|---|---------|---------------|-------|-------------------------|
| 1) PUBLICATION RESERVOIR -<br>SOUTH 1,000 FEET AND EAST 2,160 FEET FROM NW CORNER OF<br>SECTION 2               | NE $\frac{1}{4}$ OF NW $\frac{1}{4}$                                  | 2       | 17N           | 8E    | MD                      |

|                    |  |         |               |       | TOTAL                   | 17   |
|                    |  |         |               |       |                         |      |
|                    |  |         |               |       |                         |      |

The place of use is shown on map on file with the State Water Resources Control Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed a total of 29.3 acre-feet per annum to be collected from November 1 of each year to May 1 of the succeeding year as follows: (1) 3 acre-feet per annum in Publication Reservoir; (2) 15 acre-feet per annum in Nandi Reservoir; (3) 4.3 acre-feet per annum in St. Francis Reservoir; (4) 6 acre-feet per annum in World Brotherhood Retreat Reservoir, and (5) 1 acre-foot per annum in Incense Reservoir.

(0000005)

This permit does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purpose.

(000005I)

6. The amount authorized for appropriation may be reduced in the license if investigation warrants.

(0000006)

7. Complete application of the water to the authorized use shall be made by December 31, 1993.

(0000009)

8. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued.

(0000010)

9. Permittee shall allow representatives of the State Water Resources Control Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit.

(0000011)

10. Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

(0000012)

11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

(0000013)

12. Permittee shall, when required by the State Water Resources Control Board, install and maintain an outlet pipe of adequate capacity in the dams for Publication, Nandi and World Brotherhood Retreat Reservoirs as near as practicable to the bottom of the natural stream channel, or provide other means satisfactory to the Board, in order that water entering the reservoirs which is not authorized for appropriation under this permit may be released. Permittee shall submit plans and specifications of the outlet pipes or alternative facilities to the Chief of the Division of Water Rights for approval within 6 months of the date upon which the Board issues notice that outlet pipes are required. Permittee shall furnish evidence which substantiates that the outlet pipes or alternative facilities have been installed. Evidence shall include photographs showing completed works or certification by a registered Civil or Agricultural Engineer.

(0050044)

13. The total quantity of water diverted under this permit, together with that diverted under the license issued pursuant to Application 25086, shall not exceed 72.5 acre-feet per annum.

(0000114)

14. Permittee shall not divert to storage during such times as San Juan Ridge County Water District is diverting pursuant to its prior rights in Shady Creek, but permittee may divert to storage to the extent of any water in excess of the diversion capacity of San Juan's ditch at San Juan's point of diversion.

(0350800)

(0360800)

15. No action by permittee in violation of the signed stipulation, dated April 7, 1978, shall give rise to any claim of prescription against the other parties thereto.

(0000800)

**This permit is issued and permittee takes it subject to the following provisions of the Water Code:**

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Dated: OCTOBER 16 1989

STATE WATER RESOURCES CONTROL BOARD

*Walter J. Pettit*  
Chief, Division of Water Rights
